

Are you passionate about sound engineering? Do you have a keen ear for audio quality? Dublin City FM is seeking a talented and enthusiastic Sound Desk Technician to join our team as a volunteer!

As a Sound Desk Technician at Dublin City FM, you'll play a vital role in ensuring high-quality sound during live broadcasts and recorded programmes. Your responsibilities will include operating the soundboard, adjusting audio levels and troubleshooting technical issues. We'll train you on our state-of-the-art digital equipment, adding to your skills base!

This is an excellent opportunity to gain hands-on experience in the broadcasting industry and contribute to a community-driven radio station. Whether you're a student looking to expand your skills or a sound enthusiast seeking to make a difference, this volunteer position offers a unique chance to hone your technical expertise and work alongside like-minded individuals.

Requirements:

- Good knowledge of sound engineering principles and equipment
- Experience operating soundboards or similar audio equipment
- Ability to multitask and work under pressure
- Excellent problem-solving and troubleshooting skills
- Attention to detail and a commitment to delivering high-quality sound
- Team-player who enjoys working with others to create great radio

Join our team at Dublin City FM and be part of a vibrant local radio station. Gain valuable experience, connect with industry professionals, and make a meaningful impact on the airwaves. By volunteering with Dublin City FM, you'll have the opportunity to shape the content that resonates with our 367,000 listeners across Dublin. Don't miss out on this chance to be part of an amazing team and make a difference in the world of radio! Apply now through the form below and we'll be in touch very, very soon!
